

**NOTIFICATION OF AQUATIC TREATMENT
LOWER BOLTON LAKE – BOLTON/VERNON, CT**

In accordance with the Connecticut DEEP, Pesticide Division notification requirements, portions of Lower Bolton Lake in Bolton/Vernon will be chemically treated with US EPA/CT DEEP registered herbicides/algacides to control nuisance aquatic plants and algae on Wednesday, September 2, 2015. The lake will be treated copper sulfate and Reward (diquat). Do not use the water for the following purpose(s) until the date and time noted below: Boating, and fishing: no restrictions, swimming: day of treatment only or until September 3rd, livestock watering: 1 day or until September 4th, drinking/cooking: 3 days or until September 6th, irrigation: 5 days or until September 8th. These water use restrictions do not apply to wells situated around the lake. Prior to treatment, the lake shoreline will be posted with signs warning of these temporary use restrictions.

This work is being performed for the Town of Bolton. Treatments are conducted pursuant to permits issued by the CT DEEP. Information on the specific date of application may be obtained from the person named below. The treatment is being performed by the state licensed firm Aquatic Control Technology of Sutton, MA. Contact: Dominic Meringolo (508) 865-1000.
